Class - 3

Subject - Science

Lesson - 10

(A) Very Short Answer Questions :-

Ques 1 ⇒ Give one advantage of friction.

Ans ⇒ Friction prevents us from slipping on a surface and thus helps us to walk.

Ques 2 ⇒ Why are we not able to see in a dark room?

Ans ⇒ We are not able to see in a dark room because there is no light to see and we can see non luminous objects. When light falls on them.

(B) Short Answer Questions :-

Ques 1 ⇒ Define force.

Ans ⇒ A push or a pull applied on a body is called force.

Ques 2 ⇒ What is noise?
